CALL FOR PROPOSALS

Action Against Hunger-Spain is inviting service providers to submit proposals to provide the technological support to digitalization of procurement process with emphasis in tender management

Action against Hunger is a global non-governmental humanitarian organization committed to ending hunger, saving the lives of malnourished children and providing communities with access to safe water and sustainable solutions to hunger.

The final product we are looking forward to implement is an e-procurement tool to manage the awarding process from the request for quotation or the call for proposals or tenders to the final awarding, this tool could be connected to other internal tools to facilitate the tender management. This tool could be used by logistics team, tenderers and other internal stakeholders without special technical knowledge. The digital solution would allow transparency, traceability, time-saving and avoid offer tampering during the procurement process.
